

Carbon monoxide

It's colorless,
Odorless, tasteless...
*And it can **KILL!***

HOUSEBOATERS

If your houseboat has a swim platform and its electrical generator vents into the cavity beneath the stern deck, do not run your generator if someone is swimming in the rear area or sitting on the stern deck.

Know the early symptoms of poisoning: ● Headache ● Dizziness ● Fatigue ● Nausea
Take quick action if you feel ill: ● Tell someone ● Get to fresh air
